BIO

SUNNY G also known as Chelsea G blossomed into a bedroom DJ in quarantine during the COVID-19 pandemic. Born and raised on a tropical island in the pacific, life was very simple for the American-Chamorro local until Guams little nightlife community introduced her to electronic dance music. Sunny's sound is inspired by good old house music. Her sets include genres such as bass house, tech house, deep house, funky/jackin' house, pop, R&B and much more! Sunny deeply expresses her emotions through music. With a high passion for music, she couldn't help but share her perception of music with others. Her main goal as a disc jockey is to let others perceive what she feels, to experience what she encounters during her sets.
